

Programme

6th Biobased Performance Materials Symposium 15 June 2017

“How R&D on biobased materials leads to market entry”

Hotel & Conference Centre ‘Hof van Wageningen’
Lawickse Allee 9, 6701 AN Wageningen, The Netherlands

09:00 – 09:30 Reception and Registration

Welcome and opening

09:30 – 09:45 **Welcome & Opening of the symposium**
Christiaan Bolck, *director BPM - Chairman of the symposium*

09:45 – 10:05 **BPM polymerisation pilot initiatives**
Raimo van der Linden, *REWIN West-Brabant*
Gerard Nijhoving, *Senbis Polymer Innovations*

Session 1

10:05 – 10:30 **Big and powerful or small and beautiful ? Dilemmas in the bio-based supply chain**
Peter Tollington, *Cargill*

10:30 – 10:55 **Making more out of our wood**
Dirk den Ouden, *Stora Enso*

10:55 – 11:30 Coffee break

Session 2

11:30 – 11:55 **Renewable chemicals into Bio-based Materials: from lignocellulose to PEF**
Ed de Jong, *Avantium*

11:55 – 12:20 **DuPont BioMaterials: Enzymatic polymerization - a new process for engineered polysaccharides**
Christian Lenges, *DuPont Industrial Biosciences*

12:20 – 13:45 Lunch

Programme - *continued*

Session 3

- 13:45 - 14:10 **Total Corbion PLA : An innovative Joint Venture making PLA innovations a reality**
Kees Joziase, *Total Corbion PLA bv*
- 14:10 - 14:35 **Becoming a mature material: the role of customers**
Mark Geerts, *PaperFoam*
-

14:35 - 15:00 Tea break

Session 4

- 15:00 - 15:25 **Changing the world of print**
Bart de Koning & Chris Smit, *Océ-Technologies*
- 15:25 - 15:50 **Thermoforming starch based packaging based on Solanyl**
Eddie Clarijs, *Unipak & Rodenburg Biopolymers*
- 15:50 - 16:15 **Nomacorc Plantcorc™ wine closures: better biobased performance than cork?**
Olav Aagaard, *Nomacorc*
-

16:15 - 16:30 **Closing remarks**

16:30 - 17:30 Networking drinks
